STAT 601
Statistics Colloquium
Fall, 2017

Course Scope and Structure: Statistics colloquium. Repeatable for credit.

Instructor: Marina Vannucci

Office: DH2053

Email: marina@rice.edu

Office Hours: By appointment

Room: DH1070

Meeting Time: Monday, 4:00 pm – 5:00 pm

Course Objectives and Learning Outcomes

Research subjects in the various fields of statistics or other sciences associated with statistics problems will be presented in this seminar series. Topics, which form the basis of seminars, will be announced via email and the departmental website. These seminars will provide an opportunity to learn about the research at other institutions, oftentimes in an area outside students' specific dissertation specialty, and are an important part of graduate education.

Grade Policy: Graduate students are required to attend 75% of the STAT seminars.

Rice Honor Code: In this course, all students will be held to the standards of the Rice Honor Code, a code that you pledged to honor when you matriculated at this institution. If you are unfamiliar with the details of this code and how it is administered, you should consult the Honor System Handbook at http://honor.rice.edu/honor-system-handbook/. This handbook outlines the University's expectations for the integrity of your academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process.

Syllabus Change Policy

This syllabus is only a guide for the course and is subject to change with advanced notice.
